We are located in the suburb of Chicago - Lake Zurich, IL. Since 2000 we are importing food products from Bulgaria as well as from other countries. Very recently we stopped importing Bulgarian canned food and we are looking for the replacement.

Our questions:

1. Are you exporting to USA at this time? If yes - what states?
2. Do you have your products filled with FDA?
3. Can you produce private label for us? You may look at our bulgarian labels at www.food-depot.us

Your answer is deeply appreciated

Best Regards,

Angela Kavak
