

About the project *EYE Global*

Erasmus for Young Entrepreneurs Global is a cross-border exchange pilot project which gives new or aspiring entrepreneurs the chance to learn from experienced host entrepreneurs running small businesses in Israel, Singapore and USA.

The exchange can last from a minimum of 1 month up to a maximum of 3 months and takes place during a stay with the experienced host entrepreneur. This helps the new entrepreneur acquire the skills needed to run a small firm, while the host benefits from fresh perspectives on his/her business and gets the opportunity to cooperate with foreign partners or learn about new markets.

Over 55 matches have been implemented so far, and over 60 are still to be implemented. You can be the next Global New Entrepreneur. Contact us or our partners!
