### HISTORY

Its location near the seaside and the favourable conditions in the fertile Burgas valley have always attracted people to the territories of present-day Burgas, ever since antiquity. The unique archaeological findings are proof of the millennia of history in the area – ancient village mounds from the Neolith, Thracian sanctuaries and tombs, remains of roman cities, ethnographic complexes, churches and monasteries.

To experience Burgas is to experience your dreams. The caress of the salty sea breeze, the scent of the sea, that little bit of quiet, filling the tiny, huddled streets, the smiling eyes
