How the challenges work?

Challenges are activities that contain a statement or slogan, a time limit for participate and **exchange ideas** with colleagues and an interactive panel where attendees they will be able to answer, comment on the answers of their classmates, assess them, react, **interact** with mentors.

The screenshot shows the go4CLIC interface for a challenge titled "Técnica de venta SNAP". The challenge description asks participants to share how they would apply this technique in their business after watching a video. A timer shows 45 seconds remaining. The interface displays a grid of user responses under the "RETOS" tab. Each response card includes the user's name, profile picture, a text-based answer, and interactive icons for reactions (thumbs up/down, star, comment) and a share button. A "PREGUNTAS" tab is also visible. On the left, a callout shows a star rating and a notification that "Darío está escribiendo...". On the right, a callout shows a heart icon with the number "1". A central callout shows a video player with the text "Te envío el link!".

Testimonials

go4clic is much more than a platform, it is an educational environment of the highest level. It is the solution to many of the problems that we are looking to solve and that are not easy to find on the market. It is agile, understandable, highly scalable and easy to configure and use. It is undoubtedly the solution to achieve high-value content.

Jonatan Loidi
CEO Grupo Set

The platform allowed us to get to know each other better as a community and an organization. Our 200 collaborators managed to express themselves in +5,000 comments, which made it easier for us to detect the most urgent issues to work on.
