MEXICO IN A CHANGING GLOBAL ECONOMY

Mexico Investment Week 2026 builds on seven years of bringing together Mexico's capital markets and the global investment community in New York.

Over the years, it has established itself as a trusted platform connecting business leaders, investors, policymakers, government officials, and financial institutions from Mexico and around the world. The event fosters meaningful relationships, encourages the exchange of perspectives, and advances the dialogue shaping Mexico's economic future.

As global markets adapt to geopolitical realignment, technological transformation, nearshoring, and the transition toward more sustainable investment models, Mexico has reinforced its position as a strategic partner within North America and an increasingly attractive destination for international capital. In this context, Mexico Investment Week provides a timely forum to explore the opportunities and trends shaping the future of Mexico's capital markets.
