Company Profile

AMA TECH was founded in 2012. In the early stage, automation components were the main business items, and in 2018, transformed to develop and manufacture a series of air-conditioning systems and HVLS fans. We combine aerospace mechanism material design with PMSM motor to create an ultra- large energy-efficient fan and become the leader in the industry.

Products

– HVLS Ceiling Fan, HVLS Moving Fan (w/ wheels)

- Ultra ENERGY-SAVING (ESG)
- Tons of air volume
- LIGHTEST in the world (69kg)
- PMSM Motor - maintenance free & silent (<40dB)
- Water proof (IP57)

Company Profile

Tyson Bio is a professional manufacturer in Taiwan for blood glucose monitoring (BGM) products. The industry has been in severe competition.

To emerge from competition, Tyson Bio is developing its next generation product with 12% accuracy bias level, better than current international standards of 15% bias. In this way, Tyson Bio will provide better niche to its partners, especially at the time when big international brands are moving out from this industry. Other than human-use, Tyson Bio is especially strong in animal-use BGM. It is OEM manufacturer for world number 1 brand in animal care.
