

# Call for Participants

## 7<sup>th</sup> International Training Workshop on Waste to Energy

October 25<sup>th</sup> to November 8<sup>th</sup>, 2023, Hangzhou, China (Online)

### Program Outline:

The 7<sup>th</sup> International Training Workshop on Waste to Energy will be held from **October 25<sup>th</sup> to November 8<sup>th</sup>, 2023, in Hangzhou, China (online)**. The training workshop intends to share the fundamental theory, advanced technology, and practical experience of waste-to-energy (WtE) in China. The potential participants include researchers, technicians, and policymakers from developing countries. The training workshop will help improve their skills and promote international cooperation. Since 2016, six WtE training workshops have been successfully held, benefitting 151 participants from 27 developing countries.

The workshop will consist of four-hour classes each day and professors and prominent technical professionals in WtE research will lecture during program sessions. The courses, learning materials, and gifts will be offered free of charge. More information regarding the training program, the workshop's history and prior workshops' memories can be found from the following **More Information** links.

Thirty-five participants from developing countries are expected to join the workshop. Course materials will be sent to the participants **free of charge** before October 25<sup>th</sup>, 2023. Once the participants have completed all courses and have qualified for assessment, they will be awarded an official certificate issued by the Department of International Cooperation, Ministry of Science and Technology, China. The certificates will be mailed to the participants **for free**. Besides, **three outstanding participants** will be selected at the end of the workshop, issued additional certificates, and they will be **fully funded to visit WtE plants for three days if they come to China** in the future.

### Host:

Department of International Cooperation, Ministry of Science and Technology, China

### Organizer:

College of Energy Engineering, Zhejiang University

### Co-organizers:

Zhejiang University of Technology

International Consultant Committee of Waste to Energy (ICCWtE, [www.iccwte.org](http://www.iccwte.org))

### Training Location:

Zoom app (online)

### Language:

English

## Application and Admission:

Scientific researchers, government officials, enterprise managers, and engineers from developing countries who engage in waste management and related energy and environmental protection fields are welcome to join the workshop. The potential participants should hold a bachelor's degree or above. All candidates should fill out the online application form ([https://mostitp.cistc.gov.cn/student\\_login.aspx](https://mostitp.cistc.gov.cn/student_login.aspx)) and email the workshop secretariats afterwards. Applicants can track their status in the online application system using their accounts. Please do not hesitate to contact the secretariats regarding any issue encountered during the application process.

## Important Dates:

- Registration: April 15<sup>th</sup> to August 15<sup>th</sup>, 2023
- Decision Letter: August 31<sup>st</sup>, 2023
- Training Workshop: October 25<sup>th</sup> to November 8<sup>th</sup>, 2023
