UNITES ACADEMY AND INDUSTRY

To support and develop the synergy between the academic knowledge of universities and the companies, to direct it to proper channels. To increase the cooperation through clusters and provide academy-industry cooperation.

ADDS VALUE TO PRODUCER AND THE PRODUCT

Developing R&D and innovation eco system in the areas of medium and high technologies, high technologies. Commercialize the developed technologies, expand the production and export capacity.

SUPPORTS THE IDEA TO PROTOTYPE AND THE FIRST STAGE MANUFACTURE

To support the young entrepreneurs and encourage them to produce, To establish new industrial production infrastructure and organizational models and align them with global developments.

WE ARE PARTNERS OF THE WORLD'S CLEAN FUTURE

Being the focus of R&D, design, software and innovation activities, within clean technology priority.

TECHNOLOGY DEVELOPMENT WORKSHOP

COOPERATION OPPORTUNITIES

The diversity of infrastructure and perspective offers opportunities for creative production and cooperation by promoting innovation.

MEMBERSHIP SYSTEM

It serves with the membership system designed to meet different needs.

PRODUCT DEVELOPMENT CYCLE

It offers practical research, open innovation, rapid prototyping, training, consulting services and rich machine park facilities. Product development cycle makes it efficient and uninterrupted.

EXPERT DESIGN CONSULTANTS

Design Consultants have specialized personnel in business, manufacturing, mechanics and engineering to transform technicians and new product ideas into scalable businesses.

OSTİM TEKNOLOJİ INC.

PRODUCTION TECHNOLOGIES

Innovative production methods, sustainable production technology and systems, virtual factory and production automations

- Sports courses and organizations

OSTİM OSB

TECHNICAL COLLEGE

A NEW STEP FOR QUALIFIED LABOR

100% GOVERNMENT SUPPORT

In OSTİM Industrial Zone; Established with the cooperation of OSTİM Industrial Zone, OSTİM Technical University, Açı College and Bilişim Teknofen, **OSTİM Industrial Zone Technical College started accepting students in the 2021-2022 academic year.** Education at school that will offer opportunities to young talents with all its departments is 100% government incentive and free for 4 years. At OSTİM Industrial Zone Technical College; **Renewable Energy and Information Technologies** departments are also exist.

APPLIED EDUCATION

Students will be educated in the school to be chosen by the new departments according to the use and application analysis of the industrialists, with the right and applicable programs and practices, by gaining the academic infrastructure that can carry this experience to higher education; **skills and academic infrastructures will be developed with applied education, educational training services and final trainings.**

REGIONAL AND SECTORAL DEVELOPMENT

Clustering in 7 sectors with an understanding of competition...

What is Clustering?

ISIM is the first cluster established in OSTİM in 2007, as a result of the cooperation of Çankaya University and OSTİM Organized Industrial Region Directorate. ISIM consists of companies specialized in various sub-branches of the construction machinery sector and producing domestic products, as Bronze Labelled Cluster by European Commission.
